0900 – 1045 Internet of Vulnerable Things (IoVT)

Part 1: Introduction

by Pg Mohd Farid Zulhusni bin Pg Aziz,
Lead Trainer, ITPSS Sdn Bhd

Synopsis

IoT is the next evolution of the Internet. It connects devices such as sensors, actuators and various kinds of “things” to the Internet. IoT has become one of the most dynamic and exciting development in information and communications technology. This session will introduce to the fundamentals of IoT and how they are used in our everyday lives

Part 2: How Bad Could It Be?

by Mohd Ariffin bin Haji Sabli
Head of Security Research Team, ITPSS Sdn Bhd
& Eddysham Sanif, Security Analyst
Security Research Team, ITPSS Sdn Bhd

Synopsis

Have you ever wondered whether IoT devices are safe to use? Or what would happen if those devices are taken over? This session will show you the impact and how to protect your IoT devices from being hijacked or taken over.

1100 – 1145 Careers in Cybersecurity
by Mohamad Azad Zaki Haji Mohd Tahir,
Deputy Chief Information Security Officer, Cyber Security Brunei

Synopsis

With Brunei Darussalam's vision towards a "Smart Nation through Digital Transformation" and mission to "Drive and Enhance Brunei Darussalam's Socio-Economic Growth through Digital Transformation" in its support for Brunei Vision 2035, there has never been a better time to consider a cyber security career.

Cyber security professionals have a wide range of responsibilities and there are many subtle variations in cyber security careers. Eventhough they may all share the same end goal of keeping data and sensitive information safe, it is important to distinguish and choose the right area of expertise to fit individual skills and personalities. So what are the options?

1145 – 1330 BREAK FOR LUNCH

1330 – 1415 Have You Been Hacked?
by Nomi Hafiz Zakiah Haji Pawi
Security Analyst, BruCERT

Synopsis

Are you sharing too much information online? Have you ever thought to yourself, "Have I been hacked?". Whether your personal data gets exposed or compromised in a cyber breach, getting hacked can be a nightmare. Knowing what to expect and how to fix it can help, but knowing how to head-off hackers in the first place is even better!

1430 – 1515

Video Forensic in a Nutshell

by Farhanah Izyan Hj Zaini

Quality Assurance and Accreditation Manager, National Digital Forensic Laboratory

& Abdul Qadir Zaidi

Digital Forensic Analyst, National Digital Forensic Laboratory

Synopsis

Ever wonder how video forensics works at a glance? This session covers a brief introduction on video forensic processes and the science behind it. With the current challenges faced in digital multimedia evidence processing and recovery, this session will provide insight on how Video Forensics helps in various investigations. A showcase of basic video and image analysis will also be demonstrated during this session
